

EPDM TAPE PRIMER PLUS

SINGLE PLY ROOFING

SUPERIOR TACK BACK & COVERAGE

- Superior tack back functionality for detail work in vertical applications and seam work in horizontal applications.
- Improved coverage rates = 500 sq. ft. per gallon for JM versus 250 sq. ft. per gallon with the competition.
- Reduced product settling = easier to mix and consistent smooth texture.
- Color—translucent electric blue. Easy to identify vs. other cleaners and adhesives on the roof.
- Improved application temperature range.
