JM Roofing System Urethane Adhesive (RSUA) - Now approved in spatter application for securing insulation and cover boards!

Johns Manville is excited to announce the addition of spatter application for securing insulation and cover boards to roof decks and other insulation boards using JM RSUA. Spatter application allows for improved coverage rates and labor savings!

Please reference the [JM RSUA Data Sheet](#) and [Installation Guidelines](#) for approved spray equipment, coverage rates, and compatible substrates.

This is in addition to our recent [announcement](#) of JM RSUA in spatter application for adhering fleece backed membranes.

JM RSUA for spatter application is available in 15 & 50 gallon drums, and 5 gallon bag-in-box formats.

Equipment capable of producing spatter pattern of sprayable two-part adhesives must be used.

Thank you for your continued business and support of JM products.

Please contact your JM Representative with any questions.
