JM One-Part Liquid Flashing Kit - Single Ply & Permaflash™ Scrim

Johns Manville is pleased to announce the addition of **JM One-Part Liquid Flashing Kit - Single Ply** to our portfolio. Currently, JM One-Part Pourable Sealer in White, along with the PermaFlash™ scrim are offered as separate SKU's. The introduction of the kit allows installers to order one SKU which includes 4 pouches of JM One-Part Pourable Sealer and 1 roll of 12" X 60' PermaFlash™ scrim. This kit provides up to 50 square feet of coverage, offering an option for smaller flashing needs.

The JM One-Part Pourable Sealer in White was a recent introduction that allows installers a new flashing application using this material. When combined with JM PermaFlash™ reinforcing scrim as is in the kit, JM One-Part Pourable Sealer can be utilized as a liquid-applied flashing on JM TPO, EPDM and PVC membranes. Ideal for irregular penetrations such as angle irons, I-beams, and pipe clusters, this liquid flashing system does not require mixing and can be utilized with standard membrane primers. Please refer to the installation instructions and flashing details for specific requirements and procedures.

JM One-Part Liquid Flashing Kit - Single Ply in White is stocked in Scottsboro, Hazleton, and Lathrop warehouse locations and is packaged 4 pouches & 1 roll of 12" X 60' PermaFlash™ scrim included in the box. This turnkey kit will be available starting July 22nd, 2024.

Product	SKU
JM One-Part Liquid Flashing Kit - Single Ply	70009209

In addition, the **JM Permaflash Scrim** will undergo a packaging change from 4 rolls/box to 1 roll/box. The old SKU will be discontinued, and the new SKU below should be used for all future orders.

	Old SKU (4 roll/box)	New SKU (1 roll/box)	Stocking Locations
PermaFlash Scrim 12" x 300'	70000061	70009137	Macon Hillsboro Scottsboro Rockdale Hazleton Lathrop Oklahoma City
