

YEARS OF JM MECHANICAL INNOVATION

Zeston® 2000 Series Color PVC Insulated Fitting Covers

February 2014
A one-piece molded PVC fitting, available with and without inserts and in a standard range of colors. Zeston® 2000 Series Color offers more flexibility for ease of installation and a solution when aesthetics are in mind.

New Thermoformer and Extruder Installed for Zeston® Production

December 2014

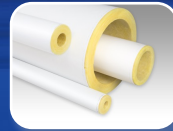

Zeston® Production Line Improvements

January 2017
Evolving our manufacturing processes to ensure that our products perform optimally from installation through operation.

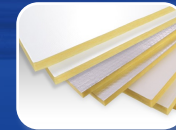

XSPECT® ISOfoam APF Board

November 2017
XSPECT® is a versatile insulation that is ideal for a variety of hot and cold mechanical and OEM applications, including rooftop ducts and HVAC equipment. This polyisocyanurate foam board offers one of the highest R-values per inch of any rigid insulation available.

Micro-Lok® HP/HP Ultra UL Listed and 3rd party certified

March 2021
Micro-Lok® HP products are 25/50 UL listed and labeled, and Intertek certified over plastic pipe assemblies for air plenum applications when used at 1.0" thickness or greater.

GREENGUARD® Gold Certified Fiberglass Board

May 2021
JM's market-leading fiberglass board, 800 Series Spin-Glas® is now GREENGUARD Gold Certified at all available thicknesses, and facings.

Spin-Glas® Ultra Tape

July 2021
Seaming tape designed to provide a vapor-barrier seal on JM's Spin-Glas® Ultra fiberglass board insulations.

Micro-Lok® HP E³ Compression Pack®

May 2022
Designed to address certain application needs, M's fiberglass plain pipe insulation now ships using compression pack technology that better protects the product inside and is 100% recyclable.

Zeston® Perma-Weld® low VOC PVC Adhesive

June 2022
A low VOC adhesive for Zeston® PVC is a low VOC PVC products that performs with superior strength.

Micro-Lok® HP Ultra

June 2015
A specialized premium fiberglass pipe insulation with a factory-applied, polypropylene-coated, ASJ vapor retarder jacket. As part of the Micro-Lok® HP product line, Ultra has the most consistent fiberglass core available in the market.

Microlite® White PSK

October 2015
A lightweight, Formaldehyde-free™ fiberglass duct wrap with a white, poly-scrim-kraft (PSK) facing. The PSK offers an extremely clean appearance that appeals to aesthetics by matching adjacent ceilings, walls, or pipe coverings.

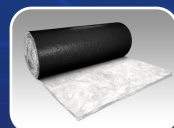

800 Series Spin-Glas® Ultra

June 2019
JM's first fiberglass board with a poly-top facing. This paper-free facing is cleanable and moisture-resistant with a polypropylene coating that is designed to be similar in appearance to Micro-Lok® HP Ultra so that the two insulations can be installed side-by-side.

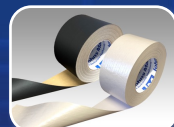

Microlite® Black PSK

June 2019
This Formaldehyde-free™ fiberglass duct wrap is adhered to a black-coated poly-scrim-kraft (PSK) facing designed specifically to offer a sleek, sophisticated look to insulate with aesthetics in mind.

Microlite® Black & White PSK Tape

June 2019
Seaming tape designed to provide a vapor-barrier seal on JM's PSK-faced Microlite® duct insulations. The tape is 96 MM wide and is offered in white or black to match our PSK-faced Microlite® insulations.

ITW Insulation Systems Acquisition

Dec 2019
Reinforcing JM's commitment to mechanical insulation, JM entered the markets for low-temperature foam insulations, such as Trymer® PIR, with the acquisition of ITWIS.

Defiance Pipe Plant Expansion

Jan 2020
The expansion added the first of two new production lines, improving JM's ability to meet demand for Micro-Lok® HP and Micro-Lok® HP Ultra fiberglass pipe insulation.

GREENGUARD® Gold Certified HTB-26 Spin-Glas®

May 2020
JM's high-temperature fiberglass blanket, HTB-26 Spin-Glas® is GREENGUARD® Gold Certified in all thicknesses.

Tapered XSPECT® ISOfoam APF Board

August 2023
JM's solution for rooftop duct applications, XSPECT® ISOfoam APF Board, now come in a tapered version to ensure better precipitation runoff and reduced field fabrication.

Micro-Flex® Ultra

September 2023
M's large diameter pipe and tank wrap now comes in an exact matching facing to Micro-Lok® HP Ultra and Spin-Glas® Ultra for a clean aesthetic.
